

"REVERSO"

AUTOMATIC WOODBURNING STOVES

Models "REVERSO" -35, "REVERSO" -45

The Reverso Wood Stove has gained the respect and reputation of being a well engineered, well built economical wood stove.

Now we have created that good old fashioned country style atmosphere by adding glass doors. Our doors are constructed of a heavy cast steel which is trimmed with a plated brass border.

We use top quality high temp Corning glass to capture the beauty of the fire.
