GAS GRILL

Model **RB-2001 LP** (Propane)

Model **RB-2001 NG** (Natural Gas)

108000 BTU,
733 Sq. Inch cooking area

Our unique dual sided design provides for a full 733 square inch grilling surface using an ample 108,000 BTU's of heat.

The grilling surface is divided into two distinct sections. The front 552 square inch cooking area is evenly divided into three sub areas each with their own independent burner and heat control.

The rear 181 square inch cooking area also has its own burner and heat control. This unique feature was specifically sized for the ever so popular mini shishkebabs.

Warnock Hersey
